

## Technical Datasheet

# PENOSIL Premium Foam Remover

Cured foam softening agent.

### Application

Shake the can. Spray PENOSIL Premium Foam Remover to the cured foam you want to remove. Avoid spraying to surfaces around the foam, because the solvent dissolves lacquer and paints as well. Allow 5 to 10 minutes for spray to action and then remove the softened foam mechanically. At the end clean surface with moistened cotton cloth.

Can is under pressure. Do not expose to temperatures higher than +50°C. Do not point in the direction of a flame or any active heat source. Ensure good ventilation while working!

### Contains

N-methyl-2-pyrrolidone > 50%  
Propane/butane 25%

### Packages

Aerosol cans of 340 ml.

### Safety regulations

Irritating to eyes and to the skin. Avoid inhalation the smoke forming when burned. Contains extremely flammable compounds. Inhalation is harmless for health persons. Ensure good ventilation when working.

DO NOT SPRAY NEAR HEAT OR FLAME!
