

ACID CLEAN

Acid based detergent for ceramic tiles

- ▷ **Removes residual adhesive, grout, lime and salts**
- ▷ **It does not cause damage to sensitive surfaces**
- ▷ **It does not erode or bleach the joints**
- ▷ **Does not corrode stainless steel bath and kitchen accessories**
- ▷ **Suitable for tiles, concrete and other mineral surfaces**

Description

ACID CLEAN is an aqueous acid solution suitable for the cleaning of tiles and natural stones from cement, coating, adhesives and grout residues. Its special composition does not change the hue of the joints and does not corrode bath and shower showers and accessories.

Uses

Suitable for cleaning concrete, tiles and natural stone from:

- cement and lime residues
- adhesives, coatings and grouts
- Salts, puddles and non-greasy stains

For surfaces such as:

- Ceramic and gres porcelain tiles
- Concrete, microcement coatings
- Mineral, acid resistant coverings

Suitable for application in:

- Houses
 - Public areas such as restaurants, hotels, hospitals
 - Industrial areas and office buildings
-

Technical Data

Product Identity

Form	Liquid
Color	Transparent red
Density	1,05 ± 0,05 kg/L
pH	0,5 ± 0,5

Application procedure

Application Apply ACID CLEAN diluted with water 1: 1 to 1: 3 depending on the type of surface and dirt on the wet surface to be cleaned and allow the product to work for 5-10 minutes. Then rub gently with a sponge. At the end of the procedure, in all cases, carefully rinse the surface with plenty of water. In highly persistent or deeply soaked stains, the above procedure is repeated. When applied to polished surfaces, it is advisable to test a small, non-visible part of the surface.

Recommendations

- Do not apply:
- On acid sensitive surfaces
- On polished surfaces without preparing a test area
- To remove greasy stains
- Consult the safe use instructions on the label before using it
- Keep out of reach of children

Consumption Depending on the type of soil 3-5 L / 100 m².

Storage ACID CLEAN remains stable for at least 12 months from production date, in its sealed original packing, stored in dry conditions and temperatures between +5°C and +35°C.

Packaging Containers of 1L and 5L.

Safety Instructions For further information refer to the Safety Data Sheet of the product.

Warning

The technical data and recommendations contained in this leaflet correspond to the best of our knowledge and experience.
