

ALKALINE CLEANER

Powerful alkaline detergent

- ▷ **For deep cleaning of oily stains and grease**
 - ▷ **Highly concentrated and effective**
 - ▷ **Suitable for tiles, concrete and mineral surfaces**
 - ▷ **Doesn't damage or alters colored joints between tiles**
 - ▷ **Removes persistent and difficult stains**
-

Description

ALKALINE CLEANER is a highly concentrated professional alkaline cleaner for removing greasy stains from concrete, tiles, natural stones and acid-sensitive surfaces. It has high penetrating capacity, effectively removes greasy pollutants in depth and restores original shade and shine.

Uses

Suitable for cleaning concrete, tiles and natural stone from:

- Oily residues and stains, grease
- Black shoe marks, household stains
- Liquid and natural protective floor waxes

For surfaces such as:

- Ceramic and gres porcelain tiles
- Concrete, microcement coatings
- Mineral, alkali resistant coverings

Suitable for application in:

- Houses
 - Public areas such as restaurants, hotels, hospitals
 - Industrial areas and office buildings
-

Technical Data

Product Identity

Form	Liquid
Color	Transparent
Density	1,07 ± 0,02 kg/l
pH	12,5 ± 0,2

Application procedure

Application Apply ALCALINE CLEANER diluted in water 1:10 to 1:20 depending on the type of surface and dirt on the surface to be cleaned and let the product act for 5 - 10 minutes. Then rub lightly with a brush or sponge. At the end of the process, in all cases, carefully rinse the surface with plenty of water. In highly persistent or deeply impregnated stains, repeat the procedure. For removal of water based liquid waxes and natural floor waxes, dilute 1: 5 to 1:10 When applied to polished surfaces, it is recommended to prepare a test area in a small, not visible part of the surface.

Recommendations

- Do not apply:
- On alkali sensitive surfaces
- On polished surfaces without preparing a test area
- For removal of cement traces
- On any surface before consulting the safe use instructions on the label before using
- Keep out of reach of children

Consumption General deep cleaning 1L/200m² diluted 1:20
Removal of liquid waxes, natural floor waxes etc. 1L/20m² diluted 1:5

Storage ALCALINE CLEANER remains stable for at least 12 months from production date, in its sealed original packing, stored in dry conditions and temperatures between +5°C and +35°C.

Packaging Containers of 1L and 5L.

Safety Instructions For further information refer to the Safety Data Sheet of the product.

Warning
