1 Utilization

Manufactured by GRUPPO STAMPLAST, these gratings are a modern solution for covering channels in zones where light and mid weight vehicle traffic is present. Replacing cast iron grids, showing the same strength and load bearing capacity, the grids are lighter, easier to handle and have more resistance to weather exposure, and can be simply fixed on Stamplast NOR and TOP type of channels.

Materials

Composite reinforced polyamide

2 Models

COD.	MOD.*					
GC13X50-02	Plastic grating B125		1	--	--	0,800 kg/pz
GC13X50-04	Plastic grating C250		1	--	--	1,240 kg/pz

CANALETTA "NOR"

Prodotta da GRUPPO STAMPLAST è ideale come sistema di drenaggio delle acque semplice ed efficace. Garantisce la giusta resistenza e semplicità nella posa in opera.

Materiale: Polipropilene Copolimero caricato con anti UV.

CHANNEL DRAIN "NOR"

Manufactured by GRUPPO STAMPLAST, it is ideal as a simple and effective water drainage system. It ensures correct resistance and simplicity during the installation.

Material: Stabilized Polypropylene Copolymer with anti UV.
