

NaturBoard FIT PLUS

April 2020

PRODUCT DESCRIPTION

Insulation slab for suspended ceilings, drywall systems and pitched roofs

NaturBoard FIT PLUS is a compact rock mineral wool slab of stable density and belongs to the group of soft products. The product is non-combustible, resistant to high temperatures, water-repellent, resistant to aging and chemically neutral.

TECHNICAL CHARACTERISTICS

0.037 W/mK
A1 - non-combustible material
~1
>5 kPa·s/m ²
≤1 kg/m²
≤3 kg/m²

DESIGNATION CODE: MW - EN 13162 - A1-T5-WS-WL(P)-AF 5

DIMENSIONS AND PACKAGING

BENEFITS

Non-combustible material A1
Self-supporting material: enabled by cutting the slabs
to be 1 cm wider than the width between the rafters
Stable and compact material
Resistance to aging
The material meets health, safety and environmental
requirements
Simple and quick installation

Thickness	Width	Length	pcs	m ²	packages	m ²	R Thermal resistance
(mm)	(mm)	(mm)	/ packaging	/ packaging	/ pallet	/ pallet	(m²K/W)
40	600	1000	15	9	8	72	1,08

NaturBoard FIT PLUS

ADDITIONAL INFORMATION

Application

The product is intended for thermal and sound insulation, as well as for fire protection of suspended ceilings, drywall systems and pitched roofs and in all places where the insulation is not subjected to pressure load.

Packaging

The product NaturBoard FIT PLUS is delivered in PE heat-shrinking foil. The products must be stored in a dry place, indoors or under roof. In exceptional situations, the packages stored outdoors should be protected by watertight foil. The packages must not be placed directly on the ground.

Quality

NaturBoard FIT PLUS is certified to comply with standard EN 13162 as well as with the EUCEB certificate which ensures that the product is biosoluble and not dangerous for health in accordance with European Directive 97\69\EC. Due to ECOSE Technology naturally based binder, it also posseses Eurofins Indoor Air Comfort Gold Certificate, regarding indoor Environmental Quality and Low-Emitting Materials.

Knauf Insulation mineral wool products made with ECOSE Technology® benefit from a no added formaldehyde binder, which is up to 70% less energy intensive than traditional binders and is made from rapidly renewable bio-based materials instead of petroleum-based chemicals. The technology has been developed for Knauf Insulation's glass and rock mineral wool products, enhancing their environmental credentials without affecting the thermal, acoustic or fire performance. Insulation products made with ECOSE Technology® contain no dye or artificial colours.
