EPOCLEANER

Cleaning additive for epoxy grout wash water

- **Effective cleaning of tiles**
- **Concentrated and effective at low dosage**
- **Keeps the sponge cleaner**
- **Helps achieve a uniform grout finish**

Description	EPOCLEANER is a concentrated liquid detergent for cleaning fresh epoxy grout residues from tiled surfaces. It is diluted in the wash water used when grouting ceramic and porcelain tiles.
Uses	Added to the wash water during epoxy grouting for: • Removing fresh grout residues from tile surfaces • Final shaping and smoothing of the grout surface For use on floors and walls finished with ceramic and porcelain tiles.

Technical Data

Product Identity	
Form	Liquid
Color	Clear yellowish
Density	≈ 1.0 kg/L
pH	10.5 ± 0.5

Application procedure

Application	Add 50 ml of EPOCLEANER to 5 litres of clean water and mix. Clean while the epoxy grout is still fresh, following the instructions in the relevant technical data sheet. Use a suitable sponge for epoxy grouts, well wrung out, and clean the surface with circular movements to remove residues and smooth the joints. Rinse the sponge frequently and replace the cleaning solution when dirty. Replace the sponge when it becomes loaded with grout residues. Complete cleaning with diagonal movements across the joints, taking care not to remove grout from within them. Avoid excessive water and complete cleaning before the grout hardens.
Recommendations	• Not intended for removing epoxy grout residues that have already hardened • Protect the product from frost • Before use, consult the safe-use instructions on the label • Keep out of reach of children
Coverage	Indicative coverage: 25–50 m² per litre of product, diluted at 50 ml per 5 litres of water. Coverage varies depending on the surface, the amount of residue and how frequently the cleaning solution is replaced.
Storage	EPOCLEANER remains stable for 36 months from the date of production when stored in its original, unopened and sealed packaging, in dry conditions at temperatures between +5°C and +35°C.
Packaging	Containers of 1L.
Safety Instructions	For information and instructions on storage, disposal and safe handling, users should refer to the latest Safety Data Sheet, which contains ecological, toxicological and other product safety data.

Legal notes

The technical details and advice provided in this product documentation are based on laboratory measurements and our current knowledge and experience. All information and specifications should, in every case, be considered indicative, as variations may occur.

The Company makes every effort to ensure the accuracy of the information provided herein. Product specifications, values and availability are subject to change without notice and may differ from those shown.

In practice, variations in materials, substrates and site conditions are such that no warranty may be given or implied regarding merchantability or fitness for a particular purpose or the specific conditions of any project. Prospective users must establish in advance that the product is suitable for its intended use. In all cases, users are solely responsible for any consequences arising from its use. Among other things, the Company accepts no liability for normal wear or damage caused by environmental or other unsuitable conditions. We reserve the right to revise or change the information herein without prior notice. The limitations and disclaimers apply to the extent permitted by applicable law.

The Company operates a Technical Support Department, which is solely responsible for providing technical advice and solutions to address problems. Requests to the Technical Support Department must be submitted and are answered in writing only.
